Subject: SC Needs Uber

I am writing to urge the SC Public Service Commission to reverse its order that would remove the essential public service that Uber provides to South Carolinians like myself. Removing this ridesharing service from South Carolina harms the tens of thousands of riders who rely on the Uber platform for safe, low-cost rides.

Thank you,
Anna Hofford

I strongly support Uber's service in South Carolina. It is a great service to the general public, local governments and the state. The government get true and exact figure of taxable amount of the drivers income as the system is well digitized. Riders feel comfortable and safe in Uber.

I will make this short and sweet.....

I am sure you have your reasons to deny Uber's existence in the state of South Carolina. Whatever they are, they are 100% not in the best interest of the citizens of your state, their safety, their desires, and your development as a gov't agency in helping continue to help this great state. While the private sector may sometimes seem too fast and scary for the slow moving state official entities.....I encourage you to stand to the side here and let a good thing continue to happen, as it is being done all over the world.....for a reason.

I encourage your agency to learn to adapt, make changes to appease all groups. Don't instead deny something because of your own inability to find solution. Welcome to the ever changing world we live in. I hope to see this reversed as do all other citizens in the state.

Thank you,
John
